Challenges

- Use JS to make some animation effects
- Browser Responsive
- Visual Design
- Unify the form of button, text and etc.

Future Iterations

- Add More Personal Style

Color, icon, font-family, pictures
Add my photo in the greeting page

- Browser Responsive

Use more div, grid, padding, margin, size, position

- Brief Description

Add some brief description to each of my works

Key words, sentence, category and etc.

THANK YOU
